About Alma de Luce

The brand was born from the vision and creativity of Helena and Carlos Costa.

Both graduated in Architecture, the founding brother and sister created a brand that strives to keep the memories of the past well alive. Alma de Luce is more than a company that produces furniture pieces. It is a brand that aims to pay tribute to the memories and praise the World's cultural heritage through traditional Portuguese craftsmanship.

Alma de Luce's mission is "to tell memories through the senses", which led to the signature: Feel the Memory, embodying the rich memories of the past and using noble materials, in a very high degree of rigour when it comes to production, in limited edition pieces.
